The book commemorates Missouri's bicentennial of statehood, and has received much praise from readers and reviewers. It is the product of Kremer's many years of research into the state's political and social history, written to satisfy both general and scholarly readers. One reviewer described the book as "sweeping in its historical scope...and masterful in its telling." Kremer is the author of 10 books dealing with aspects of Missouri history, in particular books on race, education, urban-rural divisions, and the role of government. He taught history at Lincoln University and William Woods University and currently serves as executive director of the State Historical Society of Missouri.
